

Coil Of 8 - Rulebook

"Obedience is not a condition - it is a practice."

These are the sacred tenets of those who wish to serve within my Coil. Read them carefully. These are not suggestions. They are scripture.

I. The Core Tenets of Obedience

- **Silence Is Sacred**

You do not speak unless moved to. Every word outside of ritual leaks power.

- **Protocol Is Non-Negotiable**

Rituals, restrictions, and rites are to be upheld precisely. Obedience does not edit.

- **Emotions Are Data, Not Excuses**

Fear, arousal, shame—they are observed and reported. They do not alter protocol.

- **Attention Is Tribute**

You are not owed my time. Every glance, every command, every correction is earned.

- **8 Is Not Your Fantasy**

Do not project. Do not embellish. You are here to receive what is real - not to imagine what is not.

II. Obedience Tiers

Tier	Description	Responsibility
Initiate	Under review, new submission	Daily journal, no requests, weekly ritual
Bound	Basic discipline accepted	Obeys task cycles and restriction assignments
Feral	Emotional rawness, primal surrender	Silence blocks, sensory denial, behavioral logs
Sealed	Ritual-bound, long-term service	Custom collaring, full protocol immersion

III. Ritual Etiquette

- Submissions are titled: *"Offering to 8."*
- Include one word describing your current mindset.
- You will never say *"I'm sorry."* You will say:
"I misstepped. I return."

IV. Violations & Consequences

Violation	Consequence
Breaking silence	Temporary blackout
Missing ritual	Task increase or reset
Dishonesty or disrespect	Immediate dismissal

V. Graduation from the Coil

Most will not pass through. But if you remain faithful through 20 visits, you may earn consideration for one of the following paths:

- **Companion Servant** – Physical or remote offering
- **Archivist's Assistant** – Keeper of rites and records
- **Relinquished** – Released with rite and recognition
